PROFILE

Aspiring Full Stack Developer with a strong foundation in both front-end and back-end technologies. Seeking an entry-level position to utilize my skills in JavaScript, React, Node.js, and SQL to contribute to dynamic development teams and deliver robust software solutions.

PROJECTS

TO-DO LIST

DESCRPTION:

Developed a responsive and aesthetically pleasing To-Do List web application using HTML5, CSS3, and vanilla JavaScript. The application features task management capabilities, allowing users to add, delete, and mark tasks as complete. Implemented multiple themes for user customization and ensured a seamless user experience across different devices. Utilized Google Fonts and Font Awesome for enhanced UI design, and dynamically displayed the current date and time using JavaScript.

TEMPERATURE CONVERTER

DESCRPTION:

Developed a responsive Temperature Converter web application using HTML5, CSS3, and vanilla JavaScript. The application enables users to convert temperatures between Celsius, Fahrenheit, and Kelvin efficiently. Designed a user-friendly interface with real-time conversion results and ensured a seamless experience across different devices through responsive design. Utilized version control with Git and deployed the application on a web server to ensure accessibility and maintainability.
